To,

Jyoti J. Sardesai,

Director, Food & Drugs Administration,

“Dhanwantari”, Opp Shrine of the Holy Cross,

Bambolin – Goa 403 202

Respected Madam,

My reply on explanation by Cipla to notice received for Adverse Drug Reactions of Rokfos Infusion, Batch No. V40056.

This matter is far too serious than mere death of my wife. Lives of the citizens of the country are valuable and **cannot be used as guinea pigs to conduct clinical trials by doctors and pharmaceutical companies.**

The explanation given by Cipla is exactly my allegations against the doctors of Maruti Nursing Home about drug IV Rokfos causing serious adverse reactions. These were informed to Cipla Ltd in August 2014 and to investigate the serious ADRs never seen before as admitted by the treating doctors themselves. Deliberate failure to follow the legal provisions (Schedule M of Drugs and Cosmetics Rules) was due to foul play between Maruti Nursing Home and Cipla.

I had not made allegations against IV Rokfos. Only to conduct an investigation so that I could pursue my case against the doctors for deliberately not taking action on the serious adverse reactions of IV Rokfos and watching my wife sink to her death. Non-treatment of blood disorders led to Aplastic Anaemia.

The detailed facts of the case are attached.

I request yourself to please ask Cipla to respond point by point to my allegations so that the matter is clear. I can put forward their explanation in the criminal case against the doctors as well as Cipla.

Thanking you for your co-operation,

Yours Sincerely,

Umeshchandra Chandu Barkur
